

THE REPUBLIC OF MOLDOVA
CĂUȘENI DISTRICT
SĂIȚI VILLAGE TOWN HALL

LETTER OF THANKS
December 14, 2016

My name is Valeriu Musteață. I am the mayor of the Săiți village from Căușeni district. It is my 5th mandate and thus, since 1987 I have been in the position of mayor. Săiți village is geographically placed on the south-east of Moldova, at the border with Ukraine.

There are 2138 inhabitants in the village. Out of them there are 400 elderly-retires persons and 100 invalids and disabled persons, who find it extremely difficult to cope with the personal needs, relying only on the pension or compensation they receive. The local Town Hall is constantly keeping its eyes on these people and searchers for all solutions to meet their needs.

For several years in succession we cooperate with the local NGO from Căușeni, namely the Foundation "Grația", that each year, according to the material possibilities, offers to our needy inhabitants material assistance, such as: various food, new shoes, clothes, etc which are so welcome not only for the disabled and the elderly but also for young families with many children.

On behalf of all those from Săiți village, who benefit from the material help of the Foundation "Grația", we bring a thank-you word to "Grația". Furthermore, I thank the donation organization that helps "Grația" to assist the needy families.

My biggest hope is to see the openness of "Grația" and of his donators to continue assisting our needy country people who so gratefully receive the help.

Respectfully,
The mayor of the Săiți village – Valeriu Musteață

Town Hall
